PROFILE

Results-driven and detail-oriented Software Engineer with 3 years of experience in designing, implementing, testing, and maintaining software solutions. Proven expertise in Java, C++, PHP, HTML, CSS, MYSqli, python and AJEX, combined with a solid understanding of software development best practices. Committed to delivering high-quality code within project timelines.

WORK EXPERIENCE

WSSC SWAT HR & PAYROLL SYSTEM
2023-2024

Successfully spearheaded the development and implementation of a comprehensive Human Resources Management System for WSSC Swat, integrating HR management, payroll, attendance tracking, and exit clearance modules. Showcased adept proficiency in designing and executing end-to-end solutions, leveraging technologies such as Organization Management System. The project not only demonstrated technical excellence in web development but also highlighted a deep understanding of HR workflows. Resulted in the delivery of a user-friendly and efficient system, contributing to a notable improvement in operational efficiency and compliance metrics. This accomplishment underscores my ability to translate complex requirements into highly functional, scalable, and user-centric solutions, bringing measurable enhancements to organizational processes.

WEBSITE OF WILDLIFE KPK
2022

Designed and developed the official Wildlife of Khyber Pakhtunkhwa website, highlighting a commitment to environmental conservation. Created an engaging, user-friendly platform showcasing regional biodiversity and conservation efforts. Demonstrated proficiency in blending creative design with advanced web technologies for a visually impactful experience. This project underscores my dedication to leveraging technology for positive social and environmental impact.

CONTINUED WORK EXPERIENCE

R&D Research submission portal for Peshawar Zoo

2018-2021

Developed a Research Submissions Portal for R&D collaboration between Peshawar Zoo and Peshawar University. The platform facilitates Peshawar University students in submitting their research projects to Peshawar Zoo, fostering a seamless exchange of knowledge between academia and the zoo. This initiative reflects my commitment to bridging academic and practical domains through innovative digital solutions.

CERTIFICATES

Safety officer Certificate 10-2019

Completed a comprehensive 6-month Safety Officer program, specializing in IOSH OSHA NIBOSH, Fire Emergency Planning, and Food Safety. Acquired in-depth knowledge and practical skills in ensuring safety protocols, emergency response, and food safety standards. This training enhances my ability to contribute to a secure and compliant work environment.

General electrician level (II) 10/2019

Attained General Electrician Level II certification in October 2019. Demonstrates proficiency in electrical systems, troubleshooting, and maintenance. This certification adds technical expertise and hands-on experience to my skill set.

21/2011

Strategic point of view for Architecting for Disruption to win in the Cloud & Cognitive Era.
